

FAISAL HOSSAIN

Full-Stack Developer

+49 174 3700638 | faisalh.iu@gmail.com | Offenburg, Germany

fhjoy.github.io/portfolio | github.com/fhjoy | linkedin.com/in/md-faisal-hossain-germany

Core Competencies: JavaScript · TypeScript · React · Vue.js · Node.js · Express · MongoDB · REST APIs · GraphQL · Angular · Accessibility (WCAG) · Testing

Work Authorization: Unrestricted work authorization (Niederlassungserlaubnis)

Relocation: Open to relocating within Germany

PROFILE

Web developer with 4+ years of professional experience in React, Vue.js and TypeScript, complemented by hands-on Angular experience and full-stack skills in Node.js, Express, MongoDB, REST APIs and GraphQL. Developed and enhanced 20+ projects for Deutsche Telekom, built 30+ reusable UI components and resolved 300+ WCAG accessibility issues. Increased E2E test coverage from approximately 10% to 85% and component test coverage from 0% to 70% using Cypress and Jest.

PROFESSIONAL EXPERIENCE & PROJECTS

06.2026 – Present | Independent Project | RoleNaviq – Job Application Management Platform | rolenaviq.vercel.app

- Architected a modular multi-service platform comprising a React frontend, an Angular interview preparation module, a Node.js/Express API with MongoDB, and a Python/FastAPI job-analysis microservice in development for LLM and RAG-based document analysis, enabling independent testing, deployment and scaling.
- Implemented JWT authentication with HttpOnly cookies and per-user authorization, and route-level lazy loading.
- Added Vitest and Cypress tests, Docker Compose and GitHub Actions CI; deployed React and Angular to Vercel, the Node.js API to Render with MongoDB Atlas for the database.

Tech: TypeScript, React, Angular, Vite, React Router, TanStack Query, React Hook Form, Zod, Node.js, Express, MongoDB, Mongoose, JWT, Vitest, Cypress, Docker, GitHub Actions

05.2023 – 12.2025 | Web Developer | exagon consulting & solutions GmbH | Full-time | Germany

- Developed and extended 20+ Deutsche Telekom projects (e-commerce, customer portals, trade-in, streaming/TV, B2B) and 17+ partner websites; technical ownership of several projects from development through maintenance.
- Built 30+ reusable UI components and libraries on the Telekom Design System; resolved 300+ WCAG accessibility issues across platforms.
- Refactored legacy code and migrated applications between frameworks to improve maintainability and performance.
- Developed and integrated REST and GraphQL APIs; worked in Scrum/Kanban with developers, designers and project managers and took part in code reviews.

Tech: HTML, CSS, JavaScript, TypeScript, Vue.js, React, Node.js, Express, REST APIs, GraphQL, Docker, Jira, Git, GitLab

05.2022 – 04.2023 | Web Developer | Natif.ai | Part-time | Germany

- Extended an AI-based intelligent document processing (IDP) product with 20+ Vue.js features and components; developed and refactored existing components.
- Coordinated the testing team for about six months, prioritized test tasks and aligned with developers; conducted root-cause analyses and supported developers with hard-to-test components.
- Built automated E2E and component tests with Cypress and Jest and integrated them into GitLab CI/CD, increasing E2E coverage from approximately 10% to 85% and component test coverage from 0% to 70%.
- Modernized legacy code and dependencies, improved performance and fixed bugs.

Tech: HTML, CSS, JavaScript, Vue.js, Jest, Cypress, GitLab CI/CD, Git

01.2019 – 09.2019 | Web Developer | Venus IT Institute | Full-time | Bangladesh

- Adapted content, layouts and functionality to client requirements; supported customers, analyzed technical issues and provided maintenance and technical support.

Tech: WordPress, HTML, CSS, Server Administration

04.2016 – 12.2018 | IT Support | Anik Telecom Ltd. | Full-time | Bangladesh

- Installed, configured and maintained computer systems; diagnosed and resolved hardware and software issues.

Tech: Windows, Linux, System Administration, Hardware & Software Support

05.2013 – 03.2016 | Freelancer | Upwork | Part-time | Remote

- Built WordPress sites for international clients; managed requirements and projects independently and supported SEO, content maintenance and technical writing.

Tech: WordPress, HTML, CSS, SEO, Technical Writing

EDUCATION & TRAINING

- 03.2026 – 08.2026 | German Language Course (B2) | Institut für deutsche Sprache (IDS), Offenburg
- 10.2019 – 02.2023 | Master’s Degree in Communication and Media Engineering (CME) | Offenburg University of Applied Sciences | Grade 1.8
- Master’s thesis: Comparison of Server-Side Rendering (SSR), Single Page Application (SPA) and Static Site Generation (SSG) in modern web development. Tech: React, Material-UI, Node.js, Express, MongoDB, Next.js, REST APIs, Authentication.
 - Internship: Web Design & Development; built an e-commerce website with Figma, WordPress and CSS.
 - Project: Frontend Web Development, built a social media application with Progressive Web App (PWA) features using HTML, SCSS, JavaScript and React.
 - Award: STIBET Scholarship (05.2021).
- 04.2009 – 02.2016 | Bachelor’s Degree in Computer Science & Engineering (CSE) | Islamic University, Bangladesh | CGPA 3.46/4.00 (approx. grade 1.8 in Germany)
- Award: Academic Excellence Award (04.2012, 02.2016).

SKILLS & TECHNOLOGIES

Frontend: JavaScript (ES6+), TypeScript, React (Redux, TanStack Query/React Query), Vue.js (Vuex, Pinia), Angular, Next.js, HTML5, CSS3, Sass/SCSS, Tailwind CSS, Bootstrap

Backend, APIs & Data: Node.js, Express, REST APIs, GraphQL, JWT, MongoDB, Mongoose

Testing: Cypress, Jest, Vitest, React Testing Library, Supertest

Cloud & DevOps: Docker, GitHub Actions, GitLab CI/CD, Vercel, Render, Git, GitHub, Linux

Quality: Accessibility (WCAG/a11y), performance optimization, clean code, responsive design, SEO

AI & LLM: prompt engineering, AI-assisted software development (Claude Code, Codex, GitHub Copilot, Cursor)

CMS: WordPress, Webflow, WooCommerce

Collaboration: Jira, Confluence, Scrum, Kanban

Build & Tooling: Vite, Webpack, npm, Yarn
